Climate Governance: Empowering Climate Leaders for Collective Impact

Date: 7th Sept. 2023
Time: 10:30 – 11.30 AM

The specific objectives of the side event:

1. **Strengthening Climate Governance:** Exploring effective governance structures, policies, and frameworks at the national, regional, and international levels that enable climate leaders to make informed decisions and implement climate actions.

2. **Capacity Building for Climate Leaders:** Discussing strategies for enhancing the capacity of climate leaders, including training programs, knowledge sharing platforms, and mentorship initiatives, to equip them with the necessary skills and expertise to address climate challenges.

3. **Collaboration and Partnerships:** Highlighting the importance of collaboration and partnerships among climate leaders, governments, civil society organizations, academia, and the private sector to foster collective impact in climate governance.

4. **Empowering Marginalized Communities:** Addressing the need to empower and include marginalized communities, such as indigenous peoples, women, and youth, in climate governance processes to ensure equitable and sustainable climate solutions.

The AGNES Africa is a not-for-profit continental think tank of African experts and practitioners that provides evidence-based technical support to the African Governments and the African Group of Negotiators (AGN) that enhance effective engagement in the international and national climate change policy formulation, implementation and decision making.
